

The Snow Woman

The following day, after a large snow storm, GOD sent his angels down to earth to build a snow woman.

She was a beautiful, majestic snow woman with twinkly eyes of coal, a big smile and a blue scarf around her neck, (her favorite color).

When the angels had finished, she stood there as pretty as a Christmas card.

She surveyed her surroundings, and she was in the shade of a large tree, it was very cold.

Later on that week, the sun slowly peeped through the clouds, and the snow woman started to feel somewhat strange.

She couldn't quite understand what was happening to her.

She had started to melt. She began slowly losing some of her precious abilities. She was very frightened. She wondered what was happening to her. But, in her heart she knew how the story would end. She had seen this tragedy mercilessly consume other snow women and snowmen.

It had driven her to uncontrollable tears many times... Pretty soon an older man came by and he admired her beauty.

He tried to repair her with the nearby snow. The sun got hotter, and she began to melt quickly. He worked on her every day, until he was exhausted.

Pretty soon there was only a wet, blue scarf left.

The man held it gently, embraced it, and the angels took it back to Heaven.
